

CERTIFIED MULTIDISCIPLINARY MANAGEMENT PROFESSIONAL

The management team of the future will enter an environment requiring effective leadership, facilitation, participation, decision making, people management and empowerment skills in a global environment. Those individuals who possess these skills as well as business expertise will be sought to manage multidisciplinary units. The rapid changes in the business environment have forced organizations to restructure their operations. To achieve quality service, customer satisfaction, cost-effectiveness, and efficiency, service integration across the organization will be required.
